

Science Research On the Ice

Thursday May 6th, 2021
7-8pm ET

Middle and high school youth, and families are invited to join a panel of research scientists to discuss polar science and careers in marine and environmental science!

It is easy to participate:

- ✓ Register to attend
- ✓ Submit a question
- ✓ Join us in Zoom and learn!

Ask a Polar Scientist!

REGISTER TODAY!

Link to Ask a Question:

<https://go.rutgers.edu/2tdhjggy>

Andrew Corso is excited to talk to you about marine creatures and his research experiences in Antarctica!

Dr. Scott Doney is excited to talk to you about his oceanographic research and what it is like to be a polar scientist studying climate change.

Dr. Sharon Stammerjohn is excited to talk to you about what it's like to work outdoors and in a computer laboratory exploring polar data.

This panel will be hosted by New Jersey 4-H STEM Ambassador teens!
